NINDS Priorities for the SEPA R25 & Related Resources

Marguerite Matthews, PhD

SciEd 2024

May 29, 2024

NINDS SEPA priorities

- NINDS expects to support educational activities that encourage individuals from diverse backgrounds, including those from groups underrepresented in the neuroscience field
- Programs should align with the NINDS goals of the [Strategic Plan for Training and Workforce Diversity](#)
- NINDS will support...
 - Research educational activities that address or seek fundamental knowledge about the brain and nervous system in the healthy and diseased brain, spinal cord, and peripheral nerves and informal science education activities that highlight knowledge to reduce the burden of neurological disease for all people
 - Activities focused on understanding and addressing disparities in neurologic health and health outcomes in disparate populations
- For more information, visit <https://bit.ly/NINDS-SEPA>

Additional opportunities for high school students and high school teachers

- **NIH Summer Research Experience Program R25** is an institutional grant to provide high quality research experiences for high school students and/or college students or high school science teachers for 8-15 weeks during the summer academic break
- Participating NIH ICs:
 - National Institute of Neurological Disorders and Stroke (NINDS)
 - National Institute on Alcohol Abuse and Alcoholism (NIAAA)
 - National Institute of Biomedical Imaging and Bioengineering (NIBIB)
 - National Institute of Dental and Craniofacial Research (NIDCR)
 - National Institute on Drug Abuse (NIDA)
 - National Institute of Environmental Health Sciences (NIEHS)
- The current NOFO, PAR-21-168, has expired. We expect the re-issue to be published soon for a first due date in March 2025.
- For more information, visit <https://bit.ly/NINDS-SummerR25>
